JL-Te real reason I have taken this time is because I think you should send this to Jimmy with a very short note of your own in which you pick out one of the quotes that is so specific on the official committee preconception of Jimmy as the actual assassin. The one I think is best also has Oswald as the killer. That you be able to do this without Jimmy thinking it comes from me is one of the reasons I have been so chatty. There is no tellingwwhat Lane and Freed have filled him with. HW 2/27/77
